

Diamond Innovations® is the leading global supplier of manufactured superabrasives products required for optimal material removal in surface preparation. Our manufactured product offering includes a well sintered polycrystalline diamond (PCD) product with a thick PCD layer ideal for applications in which long life and abrasion resistance is critical.

## Surface Preparation

Diamond Innovations offers a vast selection of superior products to answer the diversification of surface preparation.

### Products

**52159601** 1/4" round piece with a chamfer on the edge  
 8.0 mm overall height  
 1.0 mm radius on the corner  
 Description \_ CPF 90P6.5/8.0-18 1.5MM RAD1.0

**51405801** 1/4" round piece with chamfer on the edge  
 8.0 mm overall height  
 No radius on the corner  
 Description \_ CFP 90P6.5/8.0-18 1.5MM PCD
